IF YOU ARE IN A

BUSINESS FOG

IN THE AFTERMATH OF WAR

Let the City Directory help guide you to reorientation. It is the natural key to things as they are after the great upheaval. A recent Directory will provide the basis by which business can obtain a new grip on markets and a new appraisal of prospects. Pre-war guides of nearly all kinds are deader than a dodo today. Business now enters a new era of great possibilities. The City Directory hews to the line without propaganda, and new editions of this service reveal the great physical changes that have come over cities and communities during the past five years.

# INTRODUCTION

R. L. POLK & CO., Inc., publishers of more than 800 city, county, state and national Directories, present to subscribers and the general public, this, the 1947 edition of Boyd's Norristown Directory, which also includes Bridgeport and Jeffersonville.

Confidence in the growth of Norristown's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Norristown to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organizaiton, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Norristown Directory will fulfill its mission as a source of authentic information pertaining to the community.

### Five Major Departments

The five major departments are arranged in the following order:—

THE MISCELLANEOUS DEPARTMENT, pages 8 to 20, on white paper presents lists of borough, county, state and federal officials; post office Direcory; statistical review; historical sketch; and manufacturing, trade and civic surveys.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 21 to 478, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Norristown and vicinity, and the name, official personnel, nature and address of each firm and corporation.

THE BUYERS' GUIDE, beginning opposite page 480 and separately paged from 1 to 52, on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Norristown and vicinity. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Norristown, the necessity of having this kind of information immediately available is obvious. General appreciation of this fact is evidenced by the many reference users of this Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 481 to 540, on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any ohter medium.

The DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages 545 to 666. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant owned homes, the designation of the population of each house, and the listing of telephone numbers.

### Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Norristown and vicinity.

### The Norristown Directory Library

Through the courtesy of the publishers of the Norristown Directory a Directory Library is maintained in the offices of the Norristown Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the Diretcory as an advertising medium, with assurance that it will bring a commensurate return.

## RETAIL AND WHOLESALE TRADE (1940 Census)

| | No. of Establishments | Sales or Receipts | Employes' Payroll |
|---|---|---|---|
| **Retail Trade** | | | |
| Norristown | 642 | $16,922,000 | $1,878,000 |
| Bridgeport | 85 | 1,080,000 | 71,000 |
| **Wholesale Trade** | | | |
| Norristown | 41 | 5,348,000 | 350,000 |
| Bridgeport | 3 | 1,015,000 | 44,000 |
| **Service Establishments** | | | |
| Norristown | 253 | 1,269,000 | 347,000 |
| Bridgeport | 28 | 76,000 | 12,000 |

**Industry:** (Norristown Area): Chief industry is manufacturing, well diversified. In 1945, 69 establishments in Norristown proper, employing 4,780 persons, with an annual payroll of $10,680,100, and invested capital of $14,786,500, manufactured products valued at $40,261,000.

In the same year, 40 establishments in Bridgeport proper and the townships of East Norriton, Plymouth, Upper Merion and West Norriton, employing 8,508 persons, with an annual payroll of $15,917,400, and invested capital of $20,502,500, manufactured products valued at $66,599,200.

Total for Norristown Area: Establishments, 109; employees, 13,288; annual payroll, $26,600,000; invested capital, $49,071,400; value of products, $133,809,200.

Principal manufactured products in the Norristown area: Asbestos, beverages, boilers, bolts, boxes (paper and wood), bread, bricks, cement, chemicals, chutes, cloth, clothing, coke, concrete blocks, concrete pipe, confectionery, dessert specialties, drugs, fabricated steel, fibre, fire-proofed materials, flags, flavoring extracts, furniture, games, hoppers, hosiery, ice cream insulation, knit goods, knitting machinery, lime, macaroni, machinery, magnesia products, mattresses, medicines, millwork, mine equipment, ornamental iron, oxygen, paper, paving materials, pig iron, plastics, plates (steel), powder (face), pretzels, radiators, refractories, rivets, roofing materials, rugs, sand, screws, sheet metal products, shirts, slag products, sleeving, stacks, stone, tanks (steel and wood), tar products, toys, tubing, water coolers, wire products, woodworking machinery, woolens, yarns.

In the entire county of Montgomery, in 1945, 614 establishments, employing 57,196 persons, with an annual payroll of $133,000,000, and invested capital of $138,000,000, manufactured products valued at $516,000,000.

## THE COUNTY OF MONTGOMERY

Less than 300 years ago, the territory which now forms Montgomery County was the home of the Lenni Lenape, a branch of the Delaware Tribe of Indians. The first settlements of white men were made in 1682 by English and Welsh. In the early 1700's, the German immigration brought many settlers. Later came the Swedes and the Scotch-Irish.

There are 62 political sub-divisions in the County—8 first class townships, 30 second class townships and 24 boroughs.

One-sixth of the entire population of the United States is contained within 100 miles of Norristown, the County Seat.

Montgomery is one of the five Counties of the Third Class of Pennsylvania. In tax rates on real estate, Montgomery has a much lower rate than any other third class County. No other County in the State has a lower rate.

The assessed valuation of real estate in Montgomery County is $304,911,445 for 1946.

Since 1937 the County has had no bonded indebtedness, with the result that no funds are required for payment of interest and principal on bonded debt. This policy has made possible the low tax rate which residents of the County now enjoy.

The County owns and maintains 82 miles of improved highways and 149 bridges. The Pennsylvania Department of Highways maintains 806 miles of main highways.

The first turnpike road built in Pennsylvania, the Lancaster Pike, runs through the County. Here, in 1792-93, the road-building method of the Scotchman, John L. MacAddam, known as macadamizing, was used for the first time in America.

Industrially, Montgomery County has played an important role ever since the discovery of a great limestone belt running through it. As early as the 1690's, kilns were built to make lime, an industry still operating in the County. Later marble was quarried in large quantities along this limestone belt. For many years the marble quarries of the County were the principal ones in Pennsylvania.

Industrial development of the County has centered along the Schuylkill River. Steel mills and heavy manufacturing industries are located in Norristown, Bridgeport, Conshohocken, Royersford and Pottstown.

The Montgomery County prison is one of the few throughout the entire country approved by the Federal government for confinement of Federal prisoners.

Montgomery is the only County in the Commonwealth of Pennsylvania which has its own flag, authorized by enactment of the Legislature. The County colors, maroon and Quaker gray, were first unfurled September 10, 1934, on the 150th anniversary of the formation of the County.

Montgomery County is unique in that it combines large suburban areas with farming sections and localized industrial developments. In the suburban sections, municipal services provided are the equal of those in most large cities.

## THE BOROUGH OF NORRISTOWN

The founding of Norristown and its history are coincident with that of the state of Pennsylvania and the nation. The names of some of its streets, families and surrounding communities indicate that the first settlers were Dutch, German, Swedish, Welsh and English, many of the last named nationality being Quakers. Descendants of some of the early settlers remain in this vicinity.

## HISTORY

In 1616, Captain Hendrickson, sailing up the Delaware River, discovered a hitherto unknown river, which was given the name of Schuilen Kil, meaning "Hidden River". On the banks of this river, now the Schuylkill, lies Norristown.

The land embracing the present Norristown was conveyed to William Penn, on March 4, 1681, by Charles II in settlement of 16,000 pounds due the father of William Penn.

On October 2, 1704, William Penn gave to his son, William Jr., the tract known at that time as the "Manor of William Stadt", containing 7,482 acres, from which the whole of the present Borough of Norristown has been taken. Penn, Jr., just five days later, sold the tract to Isaac Norris and Col. William Trent for 850 pounds. On January 11, 1712, Col. Trent, the founder of Trenton, N. J., sold his holdings to Norris for 500 pounds.

In 1730, by decree of the Court of Quarter Sessions of Philadelphia County, the "Manor" was erected into a Township.

Isaac Norris, a member of the Society of Friends, was born in London, England, July 26, 1671. He immigrated to Jamaica in 1678 and came to Philadelphia in 1692. He became a member of the Assembly, a Justice of Philadelphia County and a member of the Governor's Council. At his death in June, 1735, he was Chief Justice of the Province. He never lived in Norristown or the immediate vicinity, and the naming of the settlement for him was undoubtedly due to his public activity and ownership of the land.

When Isaac Norris died, he left a large part of his estate to his son, Charles, and the latter, dying, left his estate to his wife. To settle the estate of Charles Norris, his widow, in 1771, offered at public auction 543 acres of what is now the center of Norristown, then known as the "Norris Plantation" or "Norrington". The price received was 4,270 pounds. Later it was sold for 4,600 pounds to John Bull, who on October 30, 1776, sold all his holdings, except about 55 acres, for 6,000 pounds to Doctor William Smith, Provost of the College and Academy of Philadelphia, which institution later became the University of Pennsylvania.

Originally, Norristown was in Philadelphia County. Montgomery County was erected September 10th, 1784.

The College and Academy of Philadelphia having acquired the Norris farm in 1776, the school and Dr. Smith, as the Revolution developed, were suspected of disloyalty, and the Pennsylvania Assembly revoked the school's charter, at the same time creating a new school called the University of Pennsylvania. All rights and property of the old school were transferred to the new University. Thus, when Montgomery County was erected, the University owned the region where it had been decided to locate the county seat, which was named The Town of Norris, in honor of Isaac Norris.

In 1791, the University sold its holdings bordering the Town of Norris, 484 acres, including Barbadoes Island in the River, to William Moore Smith, the son of Dr. Smith, and he disposed of it in 1802 to John Markley, who then began the development of the region.

On March 31st, 1812, the Town of Norris became incorporated as a Borough and changed its name to Norristown. The first election was held at the Court House and General Francis Swaine became the first

Burgess and President of Council. Under the deed of 1784, ownership of the site of the court house and prison remained vested in the commissioners appointed to organize the county. March 23, 1835, Levi Pawling gave a deed transferring ownership to the Burgess and the Town Council of Norristown. Neither the deed of 1835, nor the deed of 1784 covered the major part of the Public Square but only the prison and court house tract, the court house being then on the north corner of what is now the public square. No deed whatever is on record for the Public Square, but in the deeds covering the court house the land is described as bordering "a Public Square to remain open forever".

After the old court house was demolished, a controversy developed between the county commissioners and Town Council as to ownership of the Square. Seeing that under the deed of 1835 Council might claim not only the Square but also the court house, the county commissioners in 1856 obtained a deed from the trustees of the University of Pennsylvania making the commissioners the owners of the court house site. Town Council then took possession of the Square. No attempt has ever been made to obtain a decision of court as to whether the deed of 1856 legally superseded Levi Pawling's deed of 1835.

## GROWTH

In 1784 the "Town of Norris" had an area of 28 acres, and less than 100 inhabitants. Besides the county buildings, it had two stores, three taverns, a schoolhouse and about 20 dwellings, most of them log houses.

When incorporated in 1812, Norristown's area was 520 acres, with about 500 inhabitants. By 1850 the population had increased to 6,024, and the houses to 1,000.

In 1853, new territory was added, enlarging the borough to its present area. Main Street, the principal business thoroughfare of the Borough, is a development from an Indian trail, which is now a portion of the County and State highway systems. The street was originally called "Egypt Road". and this name is still visible on the corners of some of the older Main Street buildings.

The growth of Norristown from the very beginning to the present day has shown no mushroom characteristics. This applies to its commercial, industrial and financial institutions. These have multiplied steadily, substantially and permanently. The increase in population has been steady from year to year, as is best indicated by the figures of successive Censuses:

| | | | |
|---|---|---|---|
| 1820...... | 827 | 1890...... | 19,791 |
| 1830...... | 1,039 | 1900...... | 22,265 |
| 1840...... | 2,937 | 1910...... | 27,875 |
| 1850...... | 6,024 | 1920...... | 32,319 |
| 1860...... | 8,848 | 1930...... | 35,853 |
| 1870...... | 10,753 | 1940...... | 38,181 |
| 1880...... | 13,063 | | |

The industries of Norristown are well balanced and diversified, so that there have been few, if any, periods of general unemployment.

The following Norristown business concerns have been in operation for more than 100 years:

Eagle Works. Established in 1839. Now the Hilyard Company.

Washington Woolen Mills. Established in 1840. Now the George W. Watt Woolen Company.

Bank of Montgomery County. Chartered March 21, 1814. Stock books opened July 24, 1815. First Directors elected October 14, 1815. Was only bank in the County until 1857. Now the Montgomery National Bank.

Jamison's Cotton Mill. Established in 1828 or 1829. Now E. & L. Bry Co.

Norristown Insurance Co. Incorporated March 11, 1834. Now the Norristown Water Company.

Norristown Gazette. Founded in 1799 by David Sower. First issue June 14, 1799. Name changed in 1800 to Norristown Herald. Now the Norristown Times-Herald.

James Lees and Sons Company. Established in 1846.

The Norristown area is well supplied with most types of labor including workers of the semi-skilled and apprentice types and a considerable supply of hosiery workers, clothing workers, iron workers, skilled machine operators and especially labor in the building trades. Common labor in all classes is plentiful throughout the area.

## POWER AND FUEL

Electric light and power are available at unusually attractive rates being near one of the largest substations in the world at Plymouth Meeting with a 252,000 kilowatt capacity. Also at Norristown is the Barbadoes Station with a capacity of 40,000 kilowatts.

Gas is supplied through high pressure transmission mains. This manufactured gas is available at various specific pressures with rates comparing favorably with those of other cities in the East and with a particularly attractive rate for industrial uses.

Soft coal from the Pennsylvania, Maryland and West Virginia coal fields can be obtained in the Norristown area at rates which are particularly favorable. For hard coal, this section enjoys the benefits of the nearby Schuylkill anthracite region from which coal is shipped direct. The natural resources of the area are cement-bearing rock, trap rock and limestone.

## SPECIAL NORRISTOWN FACTS

Norristown is the logical center of the agricultural and industrial life of the County. which embraces an area of 484 square miles, with a population in 1946 of over 311,000.

It is the county seat of Montgomery County, which pays all of its expenses of maintenance and operation out of current income.

Norristown has unequalled fire protection, its insurance rating being the best in the country.

The soundness of its financial institutions is indicated by the fact that Norristown has never had a bank failure.

Despite the trend of recent years toward higher and higher taxation, Borough Council, without curtailing the municipal services, has reduced the Borough tax rate from 15 mills in 1939 to 14½ mills in 1946.

With an assessed valuation of $22,794,450 and a tax rate of $14.50 for $1,000 for municipal purposes, Norristown's tax duplicate for 1946 will be $330,519. Based on its population of 38,181, this represents a per capita tax levy of $8.92. Although qualified for charter as a City, Norristown remains a Borough, the largest independent Borough in the United States.

In its principal park, "Elmwood"—recently increased from 52 to 67 acres—the municipality maintains a zoological garden, tennis courts, baseball diamonds, band shell, pools and other recreational facilities.

Travel time from Norristown: Washington, 3½ hours; New York City or the Pocono Mountains, 2½ hours; Atlantic City, 2 hours; Philadelphia, 30 minutes; Valley Forge, 20 minutes.

The following institutions of higher learning are all within 12 miles of Norristown: Bryn Mawr College, at Bryn Mawr; Haverford College, at Haverford; Ursinus College, at Collegeville; Beaver College, at Jenkintown; Villa Nova College, at Villa Nova; Rosemont College, at Rosemont.

## POINTS OF INTEREST

While no battles were fought on the present site of Norristown, both contending forces of the Revolution marched over its soil. Memorials of glory are the surrounding heritage of Norristown. In one direction is Independence Hall; in another Valley Forge. Washington, Lafayette, the Muhlenbergs, Anthony Wayne, Rittenhouse Audubon, Lydia Darrah, Hancock, Hartranft, Hovenden—these are honored names inseparably associated with the environment.

## VALLEY FORGE

Norristown is truly the "Gateway to Valley Forge". This historic shrine, seven miles west of Norristown, is notable as the site of the encampment of General George Washington and his Continental Army from December 19, 1777, to June 19, 1778. Owned and administered by the Commonwealth of Pennsylvania through the Valley Forge Park Commission, the reservation now embraces 2,010 acres.

The Valley Forge Park Commission was created by Act of the General Assembly "for the purpose of perpetuating and preserving the site, to restore it as nearly as possible in its original condition as a military camp, and maintain it forever as a public place or park".

The encampment area received its name from an iron mill or forge along the Valley Creek, built not later than 1751. The plant was not a forge in the sense of a smithy, but a mill in which, by the old-time refining process, pig iron was changed to wrought iron and shaped for varied commercial uses. The forge site lies in the ravine between Mt. Joy and Mt. Misery. Known at first as the Mt. Joy Forge, it became designated as the Valley Forge before the Revolution, and the nearby village and adjacent area continue to bear this name.

The original forge, then an important munitions plant for the American fighting forces, was burned about September 23, 1777 by British mercenaries, the Hessian soldiers under the Hessian General Knyphausen, during a raid nearly three months before the Americans under Washington encamped there. During this raid, the British Army under General Howe camped for three days on the exact site at Valley Forge later to be the scene of Washington's winter encampment.

The ruins of the original Valley Forge iron mill were found under twelve feet of creek silt in 1929 by the Park Superintendent. The larger sections of the forge and bloomery are still in their original position, just as they were left when fired by the British. The Commission plans to restore the old forge plant, so that present and future generations may see the crude methods by which the early Pennsylvania "ironmasters" produced iron for commercial uses.

The Park area contains the original headquarters residence of Washington; his carriage house—now a museum of Valley Forge relics; a school house built in 1705 by Letitia Penn Aubrey, daughter of William Penn; the quarters of General James M. Varnum; the Commissary headquarters; three original forts, and several miles of the original entrenchments, as well as redoubts, redans and lunettes and the Grand Parade, where von Steuben drilled the tattered, unskilled soldiers.

Also of interest to visitors are many other Revolutionary relics and splendid picnic grounds with fireplaces and tourist camps. Here, too, is the famous Washington Memorial Chapel and its adjoining museum of American history. Guide service is available and uniformed guards are in attendance. Even under recent wartime restrictions, more than 750,000 visitors, were attracted annually to Valley Forge. In normal times the number is more than 2,000,000. Half of this number come during May, when the flowering dogwood trees are in bloom. Of this remarkable display, Harry Emerson Wildes, in his book "Valley Forge", says: "Each year in May, on Dogwood Sunday, the display of blooming trees now holds the interest of a nation. No other floral offering, not even the magnificent Japanese cherry blossoms of the Washington Tidal Basin, draws so large a throng".

It is most appropiate that Adolf Muller, an immigrant to America from Germany's Black Forest, who, during his residence in Norristown, achieved national prominence by his successful effort to popularize the distinctly American White-flowered Dogwood, is buried at Valley Forge.

Within a few miles of Valley Forge Park stands Valley Forge General Hospital, dedicated to restoring the health and physique of casualties of World War II—a sobering reminder of the connection between the Valley Forge of Revolutionary times and the America of today.

### AUDUBON

Home of John Penn, grandson of William Penn, and the last Colonial Governor of Pennsylvania. This community located five miles west of Norristown, was also the first American home of John James Audubon, famed ornithologist.

### AUGUSTUS LUTHERAN CHURCH

The oldest Lutheran Church building in America. Built in 1743 by Henry Melchoir Muhlenberg, this church is just off Ridge Pike, at Trappe, nine miles west of Norristown. General Peter Muhlenberg, Colonial soldier and statesman is buried in the historic church yard.

### GENERAL ANDREW PORTER'S HOUSE

Built in 1787, this Norristown home was the birthplace of his three sons, David R. Porter, later Governor of Pennsylvania, George B. Porter, later Governor of Michigan and James U. Porter, who became Secretary of War under President Tyler. The stone building, still standing, is now the Fornance homestead and is located off Airy Street near the West Borough line.

### MONTGOMERY COUNTY HISTORICAL SOCIETY

Historical Hall, 18 East Penn Street, Norristown, houses interesting exhibits and is free to the public.

### OLD CHRIST SWEDE'S CHURCH

The present edifice was built early in the 19th Century. The Church was organized over 200 years ago.

### RITTENHOUSE HOME

A few miles north of Norristown on the Germantown Pike, east of Fairview Village, is the site of the former home of David Rittenhouse, celebrated astronomer and mathematician of the 18th century.

### UNDERGROUND SLAVE STATION

Barn on the Hovenden property, Germantown and Butler Pikes, Plymouth Meeting, east of Norristown, covers what was once an underground slave station.

### SWEDE'S FORD

Important crossing of Schuylkill River in Colonial times. This crossing was used by the Continental Army in December, 1777, on its way to the winter encampment at Valley Forge.

### PUBLIC SQUARE

This plot of ground dedicated to the Town of Norris by the University of Pennsylvania, to be kept open forever as a public park. In this Square is one of the stones erected by David Rittenhouse, Colonial astronomer, to mark the true north and south line, which line was used to determine the boundary between Pennsylvania and Maryland.

### PERSONALITIES

WINFIELD SCOTT HANCOCK—"Hancock the Superb"—a major-general of the Civil War, was born in Norristown. General Hancock was a candidate for the Presidency in 1880, but was defeated by James A. Garfield. His burial place is not far from the place where he was born.

JOHN F. HARTRANFT—another son of Norristown, was chosen to lead the volunteers from his native town in the Civil War. He passed from one rank to another until he became a major-general. Later, he served six years as Governor of the State.

SURGEON GENERAL LOUIS W. READ—Civil War surgeon. His home still stands on East Main Street, below Green. General Read saved the life of General Hancock, wounded at Gettysburg, by extracting the bullet and part of the pommel of the saddle which had been carried into the wound.

# City Directory Dont's

**DON'T put your Directory in an out-of-the-way place, but keep it where your customers can see and use it without stopping someone to find it.**

* * *

**DON'T think that a Directory is paying for itself unless you use it, any more than an idle clerk can make you money.**

* * *

**DON'T look mad when a customer asks to look at your Directory.**

* * *

**DON'T look happy when a neighbor wants to borrow your Directory, for if you do, he will borrow it again, and if all were borrowers, when would the next Directory be published?**

* * *

**DON'T forget that an up-to-date city must have a Directory; and a merchant that has no Directory is what?**

* * *

**DON'T forget that a Directory borrower today will forget to return it tomorrow and you will call him what?**

* * *

**DON'T forget that the man who has a Directory pays for it and the borrower gets for nothing what another man pays for.**

# OUT OF SIGHT!
# OUT OF MIND!
# OUT OF BUSINESS!

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

THE CITY DIRECTORY IS THE NATURAL MEDIUM FOR KEEPING A BUSINESS OR PRODUCT NAME IN THE SPOTLIGHT. *INSIST ON BEING WELL REPRESENTED IN ITS PAGES.*

## CITY DIRECTORY USAGE SOARS TO

## *New High!*

Post-war relocation of millions in their permanent homes; readjustment of business to normal conditions; the great new developments in civilian life just over the horizon of the future —these and other things make City Directory listing a "must" for all business people. Remember the huge upswing in City Directory usage.

**IF YOU ARE IN A**

**BUSINESS FOG**

**IN THE AFTERMATH OF WAR**

● Let the City Directory help guide you to reorientation. It is the natural key to things as they are after the great upheaval. A recent Directory will provide the basis by which business can obtain a new grip on markets and a new appraisal of prospects. Pre-war guides of nearly all kinds are deader than a dodo today. Business now enters a new era of great possibilities. The City Directory hews to the line without propaganda, and new editions of this service reveal the great physical changes that have come over cities and communities during the past five years.

*Out of Sight • Out of Mind*
★ *Out of Business* ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

★

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

## CASHIERS! TELLERS! CLERKS!

***Do your employers furnish you with the latest edition of the City Directory?***

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

367-369 E. Airy St. at Walnut Phone 4121 Norristown, Pa.

# The CITY DIRECTORY

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.

# City Directory Dont's

**DON'T put your Directory in an out-of-the-way place, but keep it where your customers can see and use it without stopping someone to find it.**

* * *

**DON'T think that a Directory is paying for itself unless you use it, any more than an idle clerk can make you money.**

* * *

**DON'T look mad when a customer asks to look at your Directory.**

* * *

**DON'T look happy when a neighbor wants to borrow your Directory, for if you do, he will borrow it again, and if all were borrowers, when would the next Directory be published?**

* * *

**DON'T forget that an up-to-date city must have a Directory; and a merchant that has no Directory is what?**

* * *

**DON'T forget that a Directory borrower today will forget to return it tomorrow and you will call him what?**

* * *

**DON'T forget that the man who has a Directory pays for it and the borrower gets for nothing what another man pays for.**

## Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

**Bridgeport Street Guide follows this Department**

## 1947

Copyright, 1947, by R. L. Polk & Co., Inc.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list.

Places of business are indicated by bold face numbers and the profession or business of individuals or firms is given only at their respective place of business.

Numerical Streets are compiled in with Named Streets in their regular Alphabetical order.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Figures following names denote number of persons living at that number.

Telephone numbers, as supplied to us on our canvass, are shown opposite names. (Exchange is Norristown unless otherwise noted).

# City Directory Dont's

DON'T put your Directory in an out-of-the-way place, but keep it where your customers can see and use it without stopping someone to find it.

• • •

DON'T think that a Directory is paying for itself unless you use it, any more than an idle clerk can make you money.

• • •

DON'T look mad when a customer asks to look at your Directory.

• • •

DON'T look happy when a neighbor wants to borrow your Directory, for if you do, he will borrow it again, and if all were borrowers, when would the next Directory be published?

• • •

DON'T forget that an up-to-date city must have a Directory; and a merchant that has no Directory is what?

• • •

DON'T forget that a Directory borrower today will forget to return it tomorrow and you will call him what?

• • •

DON'T forget that the man who has a Directory pays for it and the borrower gets for nothing what another man pays for.

---

# This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

**$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.**
